

ikfast::IkSolutionListBase< T >

```
graph BT; A[ikfast::IkSolutionList< T >] --> B[ikfast::IkSolutionListBase< T >];
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a white box labeled 'ikfast::IkSolutionList< T >'. A blue arrow points vertically upwards from this box to a gray box at the top labeled 'ikfast::IkSolutionListBase< T >'. This indicates that 'ikfast::IkSolutionList' inherits from 'ikfast::IkSolutionListBase'.
